

# Instructions to Edit HTML documents on Mac TextEdit

Source: [https://www.youtube.com/watch?time\\_continue=178&v=31Lcq4kQ9v8](https://www.youtube.com/watch?time_continue=178&v=31Lcq4kQ9v8)

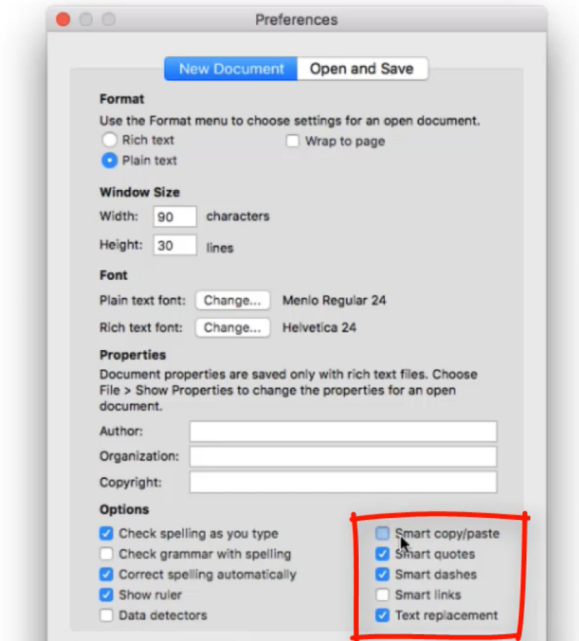

- 1) Open TextEdit
- 2) From TextEdit menu, choose Preferences

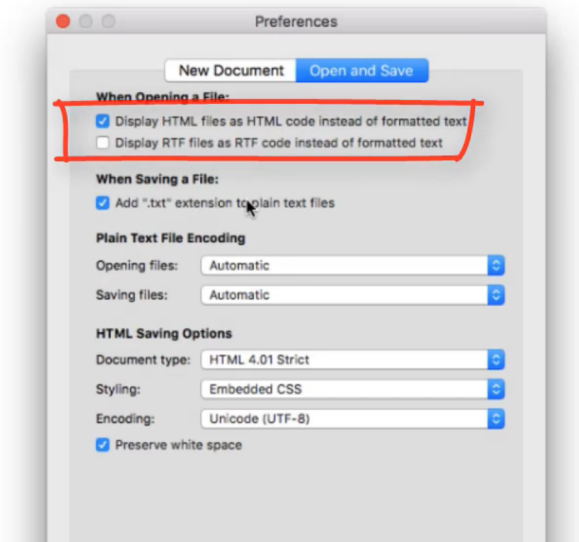

- 3) On the New Document tab, choose Plain text

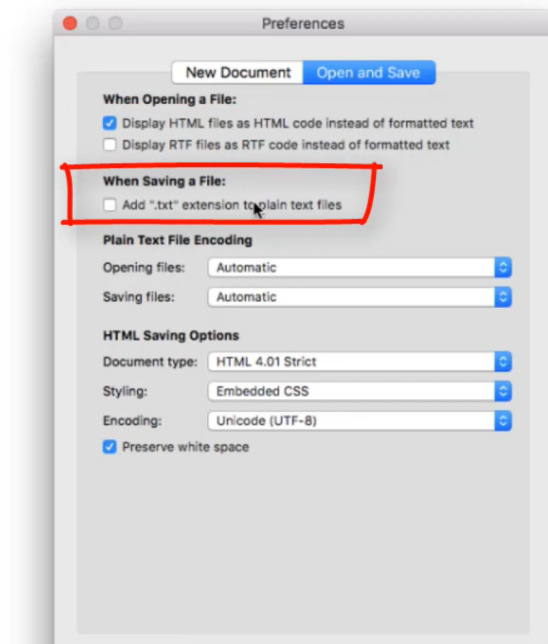

4) Unselect **Smart copy/paste, Smart quotes, Smart dashes, Smart links**

5) On the **Open and Save** tab, select **Display HTML files as HTML code instead of formatted text**

6) Unselect **Add “.txt” extension to plain text files**

7) Close **Properties** dialog box

8) **Quit** TextEdit then open it again
